

Power Profile

Application: Light Duty Commercial

Vessel Name: King George

Cordina Marine has delivered “King George,” a purpose-built rescue vessel commissioned by East Kimberly Marine Rescue. Designed for challenging sea rescues across Western Australia’s vast coastline, this 11.1-meter, 6-tonne vessel combines power and reliability, critical for the region’s demanding marine operations.

Equipped with twin 300hp Cox diesel outboards, King George leverages diesel technology for optimal performance. The engines offer high torque at lower RPMs, exceptional fuel efficiency, and extended lifespan—key benefits for long-range, high-demand missions. This vessel not only underscores the advantages of diesel outboards for commercial fleets but also showcases a collaborative innovation in Australia’s marine industry.

Vessel Construction:	Aluminum
Vessel Length:	11.1M LOA
Weight:	6 tonnes
Engine Model:	Twin Cox 300
Power Rating:	300hp (each)
Gear Ratio & Model:	1.46
Cruise Speed:	28Knots @ 2900rpm
Top Speed:	35 knots
Propeller:	SEMA, 16 x 17 – 3 blade
Installation completed by:	Cordina Marine
